## About PalabreMouse Example

Posted by Francisco Roberto - 2009/08/10 06:20

---

Hello,

```
2009-08-09 23:33:40,400 : INFO   Disconnection asked by m107(189.186.77.194)
error: uncaptured python exception, closing channel <palabre.palabreClient.Palab
reClient connected '189.186.77.194' at 0x1ac9878> (<class 'socket.error':(10053
, 'Software caused connection abort') )
2009-08-09 23:33:40,400 : INFO   Client left: m107
```

IÂ´m working with the PalabreMouse Example in my computer, it work very fine, but Four or Five minutes after execute the example, the pointer disappears, and the COnsole show the next message :

What could be happening?
